Product highlights

Revelation II is the perfect combination of a luxurious wooden chess board and integrated chess computer system. A DGT sensor board with inlaid LED lights and the strongest commercial and freeware chess engines achieving ELO ratings of 2800+.

Play at a real wooden board and pieces against the strongest chess engines or analyze your games. Play online or broadcast your games live via the internet.

Optional RETRO modules available to emulate world champion engines from the past.
Compatible with all electronic DGT chess pieces.
